Salt Herring Notes.

Dispatches from Bay of Islands, N. F., received here lately indicate that herring are scarce there. Schs. Norumbega has 800 barrels, Eliza H. Parkhurst 500 bbls., George Parker, 400 bbls., and Emma E. Witherell, 200 bbls.

People from all parts of the colony are at Bay of Islands in hope of reaping a harvest from the fishery. Herring are too much harassed owing to a wall of nets extending over the bay, which will tend to frighten them off into deep water.

The appearance of herring in large quantities in Bonavista Bay at this season of the year is unusual. Excellent catches are being made, especially on the north side of the bay and this will prove a valuable supplement to the fishery which was a poor one on the Labrador coast for many.

Herring in large quantities have struck in at Woody Island, Placentia Bay. They are very large and the prospect for good fishing is bright.

Sch. John J. Flaherty, hence for Newfoundland, put into Louisburg, C. B., for shelter on Saturday.

Has 1000 Barrels Frozen Herring.

Refrigerator vessel J. K. Manning of this port has 1000 barrels of frozen herring at Ipswich.

MADE GOOD HAULS.

Report that Gloucester seiners secured Mackerel off Sambro.

A Halifax, N. S., despatch of Thursday states that about 25 Gloucester seiners have been hovering about the entrance of Halifax harbor the past few days and have made some good hauls of fish. Several of them have started for home loaded. The fish have been schooling off Sambro in immense quantities. When the gale sprang up Wednesday the fishermen had to run into port for shelter. Sch. George F. Edmund's is reported with 204 barrels of mackerel, sch. Kearsarge with 30 barrels and sch. Lottie G. Merchant with 110 barrels, all taken off Sambro.

Not much credence is placed in some parts of the dispatch here, as it is known that there are only five seiners off Halifax and all have been heard from recently. There is no doubt but what the mackerel are there, as the fleet are staying so late, and the reports of the catches of the Edmunds, Kearsarge and Merchant are known to be correct.

RECORD BREAKER.

Sch. Talisman Stocks Over \$24,000
Dory Handlining.

VESEL MADE THREE BIG TRIPS

Welghed Out 745,475 Pounds
of Salt Cod.

Sch. Talisman, Capt. John McGinnis, weighed off 267,810 pounds of salt cod as the result of her recent handline dory trip, stocking \$8972.54.

The schooner sailed from this port March 23, and at the close of her season, November 11, had landed three trips and rolled up the largest stock ever made in the salt bank fishery in a single season.

On the three trips, the Talisman weighed off 745,475 pounds of salt cod, making the enormous stock of \$24,291.28. The high line of the crew took \$719.02 for his season's work.

The fish were mostly taken off Sable Island and at the Virgin Rocks, part of one of the fares being secured on "slickers."

Capt. McGinnis is too well known to need an introduction. For several years he has always been found in the front rank of salt fishing skippers and his host of friends are proud of the unprecedented record he has made this season. He is well-known as a hustler and lives up to his reputation. He is genial and companionable and a general favorite. He carried a smart crew, whose share of the proceeds has been most gratifying.

The Talisman is owned by Cunningham & Thompson, and they as well as skipper and crew are to be congratulated on the vessel's big season's work.

Capt. McGinnis will now fit the new sch. Aloha for a Newfoundland frozen herring trip.

SCH. A. T. GIFFORD SAFE.

Was at Halifax on Wednesday with 60,000 Pounds Cod.

Sch. A. T. Gifford, for whose safety much fear has been felt in many quarters because of totally unfounded stories which were started by evil-minded or irresponsible parties, is safe and all her crew are well. The Halifax, N. S., Hered reports her safe arrival at that port Wednesday with 60,000 pounds of cod on board.

Every winter some person or persons, whose minds must be surely bad, seem to take delight in setting afloat stories about this or that vessel, which quickly pass from lip to lip and bring anxiety and fear to the breasts of those having friends and relatives on the craft. The originators of such stories should if caught be severely dealt with.
